

# The art of Paper Collage

## Class for Adults & Teens

Sat. Nov. 15, 2-3pm & Nov. 22, 2 to 5pm

This first class is an information and preparation class for the following week's collage class held on Nov 22. It will help you decide which project you'll do and what materials and tools you'll need to bring to the following week's class. I'll show a variety of collage art, the tools to use, glues, cutting tools, books, etc, and where to find available material resources. We'll discuss themes and content so you'll leave with ideas that you can work towards in the next week's class. Available materials are magazines, found objects, photos, hand-made art papers in a variety of textures that'll allow you to create a work of art that can either look earthy, sophisticated or three-dimensional. Design something that you can frame, make a 3D box, or create your own greeting cards; it's your choice!

On Nov 22, you'll have 3 hours to work on your ideas and produce your artworks with help and instruction as needed. It's a lot of fun!

Instructor: Susan Ticken 479-5277 [www.tickenart.com](http://www.tickenart.com)

\$45 class fee, you must pre register, so I'll know the class size.  
Keep the top of this flyer for your calendar, fill out and mail lower half for registration
